

Claims

- [c1] 1. A method of purchasing a customized storage medium, comprising the steps of:
- accessing a terminal, said terminal having access to at least one recorded item and including at least one storage medium;
 - selecting at least one of said at least one recorded item;
 - adding said selected at least one recorded item to a list;
 - recording said at least one selected item to said storage medium; and
 - dispensing said storage medium.
- [c2] 2.The method of claim 1 further comprising the step of previewing said selected at least one recorded item.
- [c3] 3.The method of claim 1 further comprising the steps of:
- designing a label; and
 - printing said label on one of a protective case and said storage medium.
- [c4] 4.The method of claim 1 further including the step of including said list on said label.

- [c5] 5.The method of claim 1 further comprising the step of selecting a payment type.
- [c6] 6.The method of claim 1 further comprising the step of affixing a magnetic strip to said case.
- [c7] 7.The method of claim 6 further including the step of paying a cashier.
- [c8] 8.The method of claim 1 further comprising the step of recording data on a data collection server.
- [c9] 9.The method of claim 8 further comprising the step of accessing the recorded data.
- [c10] 10. A system for selectively storing audio and visual recorded material onto a storage medium, comprising:
 - a terminal having access to recorded material and configured to download recorded material selected by a user to a storage medium; and
 - a dispenser connected to said terminal configured to distribute said storage medium having said selected recorded material recorded thereon.
- [c11] 11.The system of claim 10, wherein said terminal includes a hard drive with recorded material stored therein.

- [c12] 12.The system of claim 10, wherein said terminal is communicatively connected to a supply server having recorded material stored therein.
- [c13] 13.The system of claim 11, wherein said terminal is communicatively connected to an internet.
- [c14] 14.The system of claim 12, wherein said supply server is communicatively connected to an internet.
- [c15] 15.The system of claim 10, wherein said terminal is communicatively connected to a data collection server.
- [c16] 16.The system of claim 15, wherein said data collection server is communicatively connected to an internet.
- [c17] 17.The system of claim 16, wherein said data collection server is communicatively connected to a website accessible by third parties.
- [c18] 18.The system of claim 15, wherein said data collection server collects data related to quantity of sales of said selected recorded materials.
- [c19] 19.The system of claim 17, wherein said third parties are copyright owners.
- [c20] 20.A method of purchasing recorded material, comprising the steps of:

selecting at least one recorded item from a list of recorded items available for purchase;
purchasing said at least one recorded item;
collecting sales data on a server related to the quantity of sales of said at least one recorded item;
communicating said data to an internet website; and
accessing said data to determine applicable royalty payments due.
